

KICK-OFF

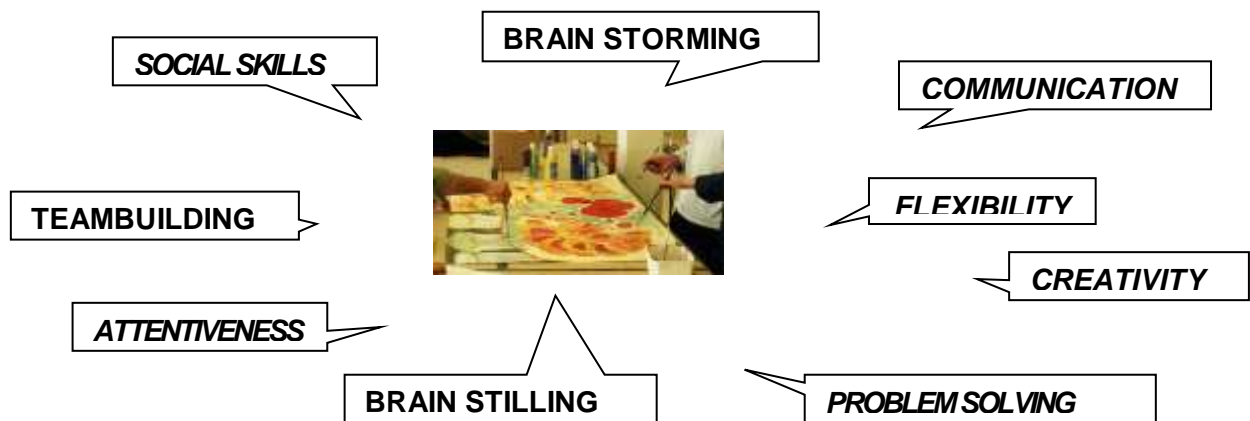

TAILORED WORKSHOPS IN COMMUNICATION SKILLS. A FUN, ENJOYABLE AND ENTERTAINING CREATIVE CONCEPT, WHICH PROVIDES TOOLS TO UNDERSTAND VISUAL MESSAGES

We observe art, we discuss art. In an unpretentious atmosphere we play various games. Art stages new unexpected roles between people and we analyze the images our reactions, feelings and relationships. We are in the land of emotions and free associations and a detective-style hunt begins, searching for the inner meaning of the image. All that which is invisible, that no one wants to see or dares to realise, is exposed in or by art. We yearn to find patterns – aesthetic and logical... in the muddle of feelings that arises *Soon everyone is in the process of creating art* in a very inclusive process-oriented method - individually and/or in groups.

BRAIN STILLING

We conclude this exciting journey into the unknown with a structured evaluation and a summary. Since art and creating art concerns the big issues of life and the the meaning of knowledge, we discover that even the most peculiar art describes bits of reality, what it means to be human.

A DAY THAT GIVES YOU ENERGY AND COURAGE TO TRY ALTERNATIVE SOLUTIONS TO PROBLEMS OR NEW CREATIVE VISIONS AT YOUR WORK
